MEMORANDUM FOR: Director of Joint Computer Support

SUBJECT : Partitioned Access to the OC Personnel
Data Base (COMCON)

REFERENCE : OJCS-1824-74, dtd 9 Dec 74, Same Subject

The need for partitioned access to COMCON has been reviewed in light of the options available according to the reference. It has been determined that the data base should be segmented at the sub-career panel level (e.g. MCA, MCT). The data base will be controlled and maintained by the Administration Division of OC Services (OC-S/AD). They will provide organizational and other cross-panel information to other OC components. A "Computer Services Request Form" (Form 930) covering the partitioning requirement is attached.

Modify the OC Personnel Data Base by sub-career panel segmentation (e.g. MCO, MCE) to provide access to each sub-career panel only by the panel's manager. OC-S/AD will be responsible for file maintenance and retrieval of cross panel information and must therefore have total access for update and retrieval. Chief, OC Services is the manager of Panel A, and requires information on all non "MC" careerists, contract and part time employees assigned to OC. Information on personnel in Panel A and in these categories should be segmented from all other panels. The data base for remaining panels should be aligned into the following five segments: 1) MCO and M; 2) MCC, MCF and MCI; 3) MCE; 4) MCN and MCT; and 5) MCS.
